CAREER OBJECTIVE

To leverage my expertise in full-stack development with React.js and Node.js, contributing to the growth and success of the organization by building scalable, high-performance web applications, optimizing backend systems, and ensuring seamless user experiences. My goal is to continually improve my skills while making a meaningful impact on both the organization and my career development

ACADEMIC PROFILE

Qualification	Board	Year of passing	Percentage
MCA	Mumbai University	2022-24	93.10%
B. Sc IT	University of Mumbai	2019-22	80.20%
H.S.C	Maharashtra State Board	2018-19	56.60%
S.S.C	Maharashtra State Board	2016-17	80%

PROGRAMMING SKILLS

- Javascript, Node.js, Express.js, React.js, WebSocket, Kafka
- PostgreSQL, MongoDB, MySQL
- Wordpress (Elementor & Divi)
- Linux (Basics)

DESIGNING SKILLS

- HTML, CSS, Bootstrap, Figma, Canva, Photoshop, Tailwind CSS

OTHER SKILLS

- A Profitable Trader(Good Knowledge about Indian Stock Market, Forex, CryptoCurrency).
- Painting, Swimming

ACHIEVEMENTS

- NCC (3 Years)
- State Level VolleyBall Player
- College Topper - Scored the highest marks in MCA (2024 batch) at Mumbai University with 93.10

Certifications

- NPTEL - Cloud Computing
- Red Hat - 5 Days Linux Course
- Cambridge English Certificate - A2 Level

WORK EXPERIENCE

SkyQ Tech Private Limited

Full-Stack Developer (React & Node.js)

06/2023 – Present (1 year 6 months)

Government Projects: MDACS, FHNO, UTI

Industrial Projects: Scope-Hai, YECC, ALLPOS, SnapGrab

- Developed and maintained scalable RESTful APIs using Node.js and Express.js.
- Built interactive and responsive web applications using React.js and Redux.
- Optimized backend performance and database queries for PostgreSQL and MongoDB.
- Integrated third-party APIs and payment gateways for seamless user experience.
- Designed and implemented authentication and authorization using JWT.
- Led debugging and troubleshooting of frontend and backend issues.
- Assisted in managing databases, generating leads, and optimizing database performance.

ACADEMIC PROJECT

Result Management System (React.js, Node.js, Express.js, MySQL): (Graduation Final Year Project)

- Developed a student result portal to display examination results securely.
- Implemented user authentication for students and admins.
- Designed a result analyzer to show subject-wise performance.
- Ensured secure data storage and retrieval using MySQL.

Online Shopping Portal (React.js, Node.js, Express.js, MongoDB):(SEM I MCA)

- Built an e-commerce platform with product listing, cart, and checkout.
- Integrated JWT authentication for user login & registration.
- Implemented secure payment gateway integration.
- Used Redux for state management.

Gymnasium Management System (React.js, Node.js, Express.js, PostgreSQL): (SEM II MCA)

- Developed a membership and attendance tracking system.
- Implemented admin dashboard for managing gym members, trainers, and schedules.
- Created payment tracking and subscription renewal functionality.
- Optimized database queries for faster performance.

Water Delivery App (Figma) : (SEM III MCA)

- Designed a user-friendly and visually appealing interface.
- Created wireframes and prototypes for key app screens.
- Designed the homepage, product catalog, user profile, checkout, and tracking pages.
- Focused on intuitive navigation, clear product presentation, and seamless ordering.

IoT-Based Smart Home System (React.js, Node.js, Python, IoT, Arduino): (SEM IV MCA)

- Created a dashboard to monitor and control smart home devices.
- Integrated real-time sensor data from IoT devices using WebSockets.
- Built a REST API to control lights, fans, and temperature remotely.

Other Projects:

1) Chat bot – MERN

2) Allied Master Class & Swicons (Clone) – Wordpress
